Michigan State University

2013 High School Athletic Training Student Workshop

June 16–June 19, 2013

MSU would like to invite you to our 2013 Athletic Training Student Workshop. The workshop will be held from 3:00 pm, Sunday, June 16 until 12:30 pm, Wednesday, June 19 on the campus of Michigan State University. The camp is designed for high school students who are interested in basic and advanced athletic training knowledge and skills. The workshop will consist of lecture and laboratory sessions incorporating an aggressive sharing of athletic training topics. Objectives will include introductory information emphasizing anatomy, injury recognition and evaluation, initial treatment plans, taping and wrapping, improved awareness of emergency situations, general rehabilitation ideas, record keeping, and an overview and exposure to the athletic training and sports medicine professions. MSU will offer an innovative, open, and sharing environment for learning and knowledge gathering.

Full-time Michigan State University Athletic Training staff will be involved in the daily instruction and lab sessions. Guest lecturers will involve local high school athletic trainers, team physicians, and various sports medicine/allied health professionals from the community. Current undergraduate athletic training students will be present to assist with lab sessions, mentoring opportunities, and daily supervision.

Michigan State University’s Accredited (CAATE) Undergraduate Athletic Training Educational Program offers a Bachelor of Science Degree within the Department of Kinesiology. Students are offered an extensive range of clinical experiences in conjunction with a challenging, research-based educational and classroom opportunity. MSU has a long, successful history of preparing aggressive, critical thinking “hands on” athletic training students while combining educational and clinical exposures to various health care professionals.
