Professional Clinical Skills

Key: Please evaluate the student for the following clinical skills using the scale listed below. Please rate the athletic training student for their expected required skill level:

****Please describe and provide written comments on the specific observed deficiencies for each potential clinical skill observed within your clinical setting and listed.**

- **5 (Excellent)** – Athletic training student proficient enough to perform skill independently. ATS confers with the preceptor when appropriate for validating decision making. The ATS is able to practice and perform this skill safely, consistently, and independently. The student exceeds the standard.
- **4 (Above Average)** – Athletic training student competent, however, not proficient enough to perform skill independently. ATS seeks minimal advice from preceptor. The ATS is competent and needs minimal guidance from the preceptor. The student meets the standard, however, not yet consistent or fully independent.
- **3 (Average)** - Athletic training student requires close supervision from the preceptor in practicing and performing skill. However, with proper guidance, practice, and integration of skill, able to complete an average amount of the time. The ATS needs periodic verbal cuing and physical assistance from the preceptor. The student is progressing toward the standard, demonstrating partial skills, knowledge, with a lack of consistency.
- **2 (Below Average)** - Athletic training student requires constant clinical supervision from the preceptor in performing and practicing clinical skill. ATS cannot accomplish the task without direction from the preceptor or clinical instructor. The student demonstrates little progress or consistency in meeting the standard.
- **1 (Deficient)** – Athletic training student requires constant clinical supervision and instruction from the preceptor. Continuous remedial instruction and support needed. No consistency. Student is unable to grasp and complete concept and task in clinical setting. No progress towards meeting standard.
- **N/A – (Not Applicable/Not Observed)** Preceptor did not observe this duty/skill.
